

Headquarters in Germany

SOMMER is one of the leading manufacturers of high-quality operators and wireless control systems in Europe.

Our company was established in 1980 in Kirchheim/Teck in the South of Germany and has been flourishing since then. Since day one, **SOMMER** places great emphasis on outstanding quality and exceptional service and our main focus are our customers.

The **SOMMER** company together with their subsidiaries and partners worldwide offer you everything from one source. Our products stand for highest quality and innovative technology.

SOMMER
Made in Germany

1980 – 2010

SOMMER products offer you automation in your home, garage, gate and garden at the touch of a button.

garage door operators

Highest safety standards

Importance in safety is a key factor of all **SOMMER** products (e.g. automatic obstacle detection).

sliding gate operators

radio control system

swing gate operators

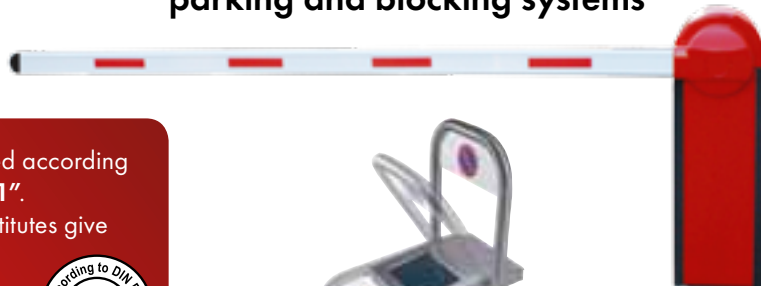

State of the art technology

When designing operators, **SOMMER's** main focus is to produce durable and reliable operators that represent extremely good value for money. The operators are installed easily and quickly, as well as programmed without difficulties.

Diversity in the product range: safety devices, e.g. warning light, light barriers (photo cells) and electric lock are connected easily.

parking and blocking systems

SOMMER is certified according to "DIN EN ISO 9001".

Independent test institutes give you and your family assurance of safety and quality.

tubular motors and roller door controls
