

Modernity in a new dimension.

The slider transmitter by SOMMER

SOMMER
Made in Germany

1980 – 2010

The outer values: modern – stylish – durable casing

Momentum:

The four buttons enable the control of up to four different applications. Enjoy the comfort of radio control at the touch of a button!

Devotion:

The high-quality housing in stainless steel provides for a harmonious design. Due to the timeless appearance the transmitter will always remain a classy companion.

Smoothness:

- ▶ innovative slider function
- ▶ prevents unintended transmission

Portability:

- ▶ specially for keyring pendants
- ▶ including snap-links

To compare:

(full-scale)

The inner values: quality components with full compliance

SOMMER
Made in Germany

1980 – 2010

Extremely high security:

- ▶ the SOMMER radio system is known as the most secure and reliable
- ▶ secure against "code scanning": due to the code length of 66 Bit there are 74 trillion different combinations
- ▶ secure against "code grabbing": the code changes after every use (→ "Somloq Rollingcode-System")

Extremely high quality:

- ▶ all transmitters are fully tested and assembled using the highest quality components
- ▶ we guarantee a high quality product with a long operational life

Compactly: all figures, data and facts

4-command transmitter with SOMMER engraving:	item no. 4031V000
Radio control system:	FM 868.8 MHz* Somloq Rollingcode
Range:	approx. 35 m
Slider function:	<input checked="" type="checkbox"/>
Housing:	dust-proof
Battery:	3 V (Type CR 2032)
Dimensions:	62 x 35 x 16 mm

* Also available with FM 434.42 MHz expected at the end of 2010.

The advantages of the SOMMER radio system:

- ▶ **frequency-modulated with FM 868.8 MHz** providing better reception and extremely high transmission security
- ▶ no visible antenna
- ▶ **exceptionally safe Somloq Rollingcode System**; the code length of 66 Bit provides 74 trillion different combination options and offers highest security
- ▶ self-learning
- ▶ **very reliable** due to top-quality components
- ▶ virtually unlimited expansion possibilities for transmitter applications, e.g. collective garages
- ▶ **low power consumption** due the high efficiency of the innovative FM 868.8 MHz radio system
- ▶ codes can be deleted if necessary for security reasons
- ▶ multiple check of the received radio signal
